

Hemant Yadav

Full Stack Web Developer

PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer with strong expertise in the MERN stack, including JavaScript, Node.js, and React.js. Proficient in Generative AI and swift in adapting to new technologies. Excels in seamless frontend-backend integration, efficient API design, collaborative development, and enhancing code quality.

WORK EXPERIENCE

STOQ Club | Nagpur, Maharashtra

Web Developer

July 2024-present

Job responsibilities:

- Led the development of five integrated applications—Research Analyst, Research Analyst Head, Dealer, Admin, and Client App—ensuring seamless functionality and user experience.
- Designed and implemented the Admin Panel, enabling basket management, role-based access (RA, Dealer, Client), and investment tracking with advanced filtering and pagination.
- Developed a comprehensive Order Placement System, supporting basket creation, approvals, rebalancing, and real-time investment monitoring for clients.
- Built role-specific functionalities, including Research Analyst tools for basket creation, Research Analyst Head approval workflows, Dealer-client interactions, and a mobile-friendly Client App for investment tracking.
- Integrated an OTP-based authentication system with security enhancements like temporary lockout after multiple failed login attempts, ensuring robust access control.

PROJECTS

1. SA RE GA MA | 🌐 | 🎧

JavaScript | React | Redux | Git | Node.js | Express.js |

MongoDB | RESTful APIs | HTML5 | CSS3 | Chakra UI

- Secure Authentication & Playlists: User registration, login, forget password, and personalized "Liked Songs" feature.
- Advanced Music Player & Search: Play, pause, navigation controls, and dynamic song filtering.

2. PRECIOUS & CHARMS | 🌐 | 🎧

JavaScript | React | Redux | Git | HTML5 | CSS3 | Chakra UI

- Seamless Shopping: User registration, product browsing, filtering, cart management, and secure checkout.
- Powerful Admin Control: Efficient product management, order tracking, and user monitoring.
