

Hemant Yadav

Full Stack Web Developer

PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer with expertise in the MERN stack and proven ability in Generative AI. Highly skilled in seamless frontend-backend integration, efficient API design, and database optimization. Excels in adopting new technologies quickly while driving innovation and enhancing software quality.

WORK EXPERIENCE

STOQ Club

Web Developer

July 2024-present

Job responsibilities:

- Led the development of five integrated applications—Research Analyst, Research Analyst Head, Dealer, Admin, and Client App—ensuring seamless functionality and user experience.
- Designed and implemented the Admin Panel, enabling basket management, role-based access (RA, Dealer, Client), and investment tracking with advanced filtering and pagination.
- Developed a comprehensive Order Placement System, supporting basket creation, approvals, rebalancing, and real time investment monitoring for clients.
- Built role-specific functionalities, including Research Analyst tools for basket creation, Research Analyst Head approval workflows, Dealer-client interactions, and a mobile-friendly Client App for investment tracking.
- Integrated an OTP-based authentication system with security enhancements like temporary lockout after multiple failed login attempts, ensuring robust access control.

PROJECTS

1. PRECIOUS & CHARMS | |

JavaScript | React | Redux | Git | HTML5 | CSS3 | Chakra UI

- Seamless Shopping: User registration, product browsing, filtering, cart management, and secure checkout.
- Built and optimized the Order Placement Section, ensuring a seamless checkout and payment process for users.
- Managed task distribution and monitored project progress to ensure timely delivery and resolve team roadblocks.

2. SA RE GA MA | |

JavaScript | React | Redux | Git | Node.js | Express.js |

MongoDB | RESTful APIs | HTML5 | CSS3 | Chakra UI

- Secure Authentication & Playlists: User registration, login, forget password, and personalized "Liked Songs" feature.
- Advanced Music Player & Search: Play, pause, navigation controls, and dynamic song filtering.
